MARINE HOSPITAL!

Sanitarium at Fort Stanton to Entirely Remodeled.

NO LONGER AN EXPERIMENT.

The United States marine hospital at Fort Stanton is about to be entirely remodeled, says the Alamogordo News, At the last session of congress \$30,000 was appropriated for that purpose and his amount is now in the hands of Dr. J. O. Cobb. the surgeon of the marine hospital service in charge. This money is an entirely distinct appropriation from that for laundry, sterilizing, refrigerating and electrict light machinery which has been purchased and is ow on the ground ready to be put up. Government Architect Thomas is a ort Stanton and has already completd the plans and specifications for the ntire remodeling of the old barracks and other buildings. After these improvements have been made, the buildngs will be practically new, as everyning will be remodeled from top to hotturn. A realing room, recreation room and laboratory, which will be one of the most complete in existence devoted to the treatment of tuberculosis, will be added to the equipment under this appropriation. W'en the plans are carried out there will be accommodations for 200 patients at the sanitarium. The work will begin shortly and will probably be completed inside of the next three months. In addition to the above, reprovements, the grounds will also be eautified, and Dr. Cobb has recomnended that funds be appropriated for the purpose of drilling for artesian vater on the reservation.

The sanitarium is now no longer ar periment as the results obtained since a foundation have placed it beyond hat stuge. It is established for the reatment of consumptives from the inited States marine, and has achieved Stanton was chosen after years of care-'ul research and investigation and the sults have abundantly justified the ection of the old military post. The ospital is located in Lincoln county some five miles from the terminus of he El Paso & Northeastern road at Capitan and twelve miles from Lineals
